Executive Findings

KEY INSIGHT

Lead-time spike near 30 days

63.0%

The 26-30 day gap before check-in has 3,102 cancellations.

Business impact: 51.1% of all cancellations occur in this window. Booking dates: Apr 01, 2024 - Apr 29, 2025; check-in dates: May 01, 2024 - May 29, 2025.

KEY INSIGHT

Four-night bookings are the highest-risk stay length

62.6%

All other stay lengths combined cancel at 4.6%.

Business impact: Stay length should be included in cancellation forecasting and retention targeting.

KEY INSIGHT

Travel Agent bookings carry the highest channel risk

29.7%

Web bookings are lowest at 18.6%.

Business impact: Channel-specific cancellation controls can reduce avoidable lost bookings.

KEY INSIGHT

Star rating is not a major cancellation driver

Only 1.6% gap

Cancellation rates are almost the same for 2-star, 3-star, 4-star, and 5-star hotels.

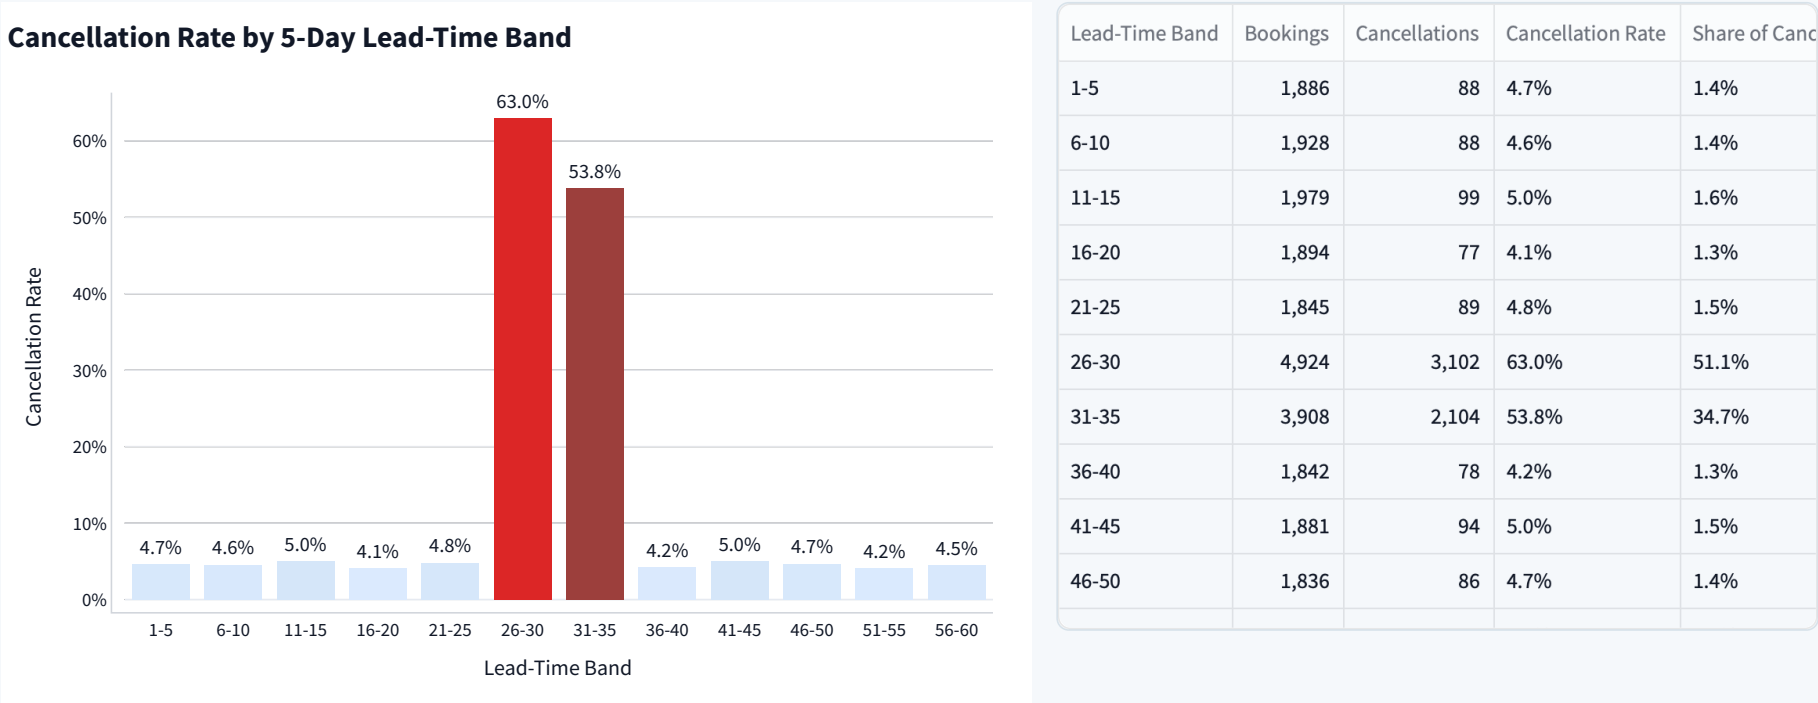

Business impact: Focus more on lead time, booking channel, and stay length because those show clearer differences.
